

## FEATURED PRODUCT

This is the column where we re-introduce you to those great products and or services that we have provided for a long time that you may have forgotten about. In this issue we'd like to remind you about Silver Biotics.

We discovered Silver Biotics years ago at a healthy living conference in New York when they were just coming to market and started using it ourselves and also brought it into the store. It's been a great solution for keeping healthy for all those who have discovered it. With the kids back in school and flu season fast approaching everyone is looking for a way to stay healthy. Now is the time to get serious about your well-being and prepare to make a stand in favor of you and your family's health.

Silver Biotics® is the #1 choice of tens of thousands of people for helping to supercharge their immune systems. By helping to boost the immune system, you allow your body's own natural defense system to work more efficiently at helping to maintain its natural and healthy state. Take Silver Biotics® orally every day to give your body the upper hand by helping to boost the immune system. Use it as one of your family's first lines of defense.

No one can truly afford the consequences of having to miss a day of work or school unexpectedly. Often times it ends up costing us more in time and money than if we had taken the simple steps to help prevent it. The truth is we don't have time to slow down in this fast paced world. Add Silver Biotics® to your already healthy lifestyle of exercise, good nutrition, proper hygiene, and adequate sleep. With this powerful combination, you'll help empower your body to overcome anything life throws your way.

The silver gel is the ideal choice for almost any cosmetic use. With its powerful 20 ppm SilverSol® gel formula, your skin will benefit from its many unique properties. Not only does it help hydrate and rejuvenate the skin, but more importantly, it helps to promote natural healing. The Silver Gel is a great hand sanitizer that not only kills the bacteria on your skin when you apply it but at works for up to 4 hours after application. Use Silver Biotics™ Silver Gel everyday to give your skin the upper hand, and join the thousands of individuals who have already come to love the rejuvenating benefits of Silver Biotics™ Silver Gel.

## Benefits of Using Stainless Steel Straws

There are many reasons why you should update to stainless steel straws. Here are some of those reasons.

• **Environmentally Friendly** - Haven't we polluted the earth enough? According to Mother Earth Living, the manufacturing of plastic products releases a whole set of carcinogenic, home-disruptive and neurotoxic chemicals into the atmosphere. These products eventually find their way to our ecology through the air, water and land pollution. Teach your kids the importance of switching to environmentally friendly products, such as metal straws to protect the environment. This will encourage them to reduce the use of plastic made products and to recycle.

• **Reusable** - Stainless steel straws are reusable and can last for ages if you clean them properly. In addition, stainless steel does not leach chemicals and does not interact with the product you are consuming. On the other hand, plastic straws can only be used once and leech harmful chemicals.

• **Easy to Clean** - Rest assured, cleaning a stainless steel straw is as easy as it could be. Most metal straws are dishwasher safe so all you have to do is rinse the straw and toss it inside the dishwasher and you are good to go. In addition, aside from being dishwasher safe, stainless steel straws come with their own cleaning brush, to ensure that every inch of the straw remains spick and span. What's best is that the cleaning brush is also great for cleaning sports bottles and sippy cups too!

• **Perfectly Safe to Use** - Unlike plastic products, stainless steel straws are perfectly safe to use and BPA free. Plastic straws have been known to leech harmful chemicals into the bloodstream. Plastic products and containers manufactured to store food and beverages, such as water bottles and straws may contain BPA. According to Mayo Clinic, Bisphenol A is an increasingly common industrial chemical used in the industrial production of certain plastics and resin. Over the years, BPA has been known to increase the risk of health problems, such as reproductive disorders and diabetes.

• **Great Gift** - There is no better gift then giving someone something that reduces pollution and suffering. Stainless steel straws are a great perfect gift for anyone who is fitness conscious and concerned about the environment.

**Each SGMC Stainless Steel Straw comes with a cleaning brush. Buy One or Buy Many and Save!**

Featuring Dental-Lac™, a patent pending functional lactobacillus dental hygiene probiotic not found in any other toothpaste product. Research on Dental-Lac™, a specific Lactobacillus paracasei strain, has shown that it competes with unhealthy strains of oral bacteria including streptococcus mutans, thereby helping to maintain healthy teeth and gums. Like probiotics in the human intestinal tract, beneficial flora in the mouth are critical to maintaining dental and oral health.

PerioBiotic™ toothpaste also contains xylitol and calcium glycerophosphate, two active ingredients that have been shown in research to promote dental and oral health via their cavity-fighting abilities.\*

What's not in PerioBiotic™ does matter... The ingredients not found in PerioBiotic™ toothpaste, which are found in most other toothpastes include: fluoride, sodium lauryl sulfate (SLS), and saccharin. Also, this product is not harmful if swallowed as it does not contain fluoride.

**ConcenTrace® Mineral Mouth Rinse** is a gentle rinse that helps to promote fresh breath and a clean feeling the natural way. It's made with ConcenTrace® ionic trace minerals, America's #1 selling trace mineral supplement, colloidal silver, and peppermint essential oil. This unique blend helps rinse your teeth and gums of food debris while the minerals help to neutralize odors and acidic foods that cause bad breath, leaving your mouth clean and your breath fresh.

While 60% of magnesium in the body is found in the bones and teeth, 40% of the magnesium in the body is found in the muscles. In the muscles, magnesium is primarily responsible for muscle relaxation after contraction. Studies indicate that 68% of US adults consume less than the RDA of magnesium per day. A deficiency of magnesium in the body can result in a myriad of problems, including muscle cramps and nerve irritability.\*

Magnesium is also the second-most plentiful positively charged ion found within the cells of the body, signifying its importance in a multitude of physiological cellular functions.\* Stress-X Magnesium Powder is a natural magnesium supplement formulated with magnesium malate and a special blend of magnesium carbonate and citric acid, which creates a highly absorbable form of magnesium citrate to help maintain healthy magnesium levels in the body to help you stay calm and relaxed and to feel overall wellness in body and mind.† We also added a complex of over 72 naturally-occurring electrolytes from Ionic Trace Minerals for a magnesium supplement that is unmatched in the industry.
